Welcome to Ballina Central Holiday Park. It really is the perfect place to enjoy your next holiday

Whale Watching Season

The Australian whale season from June to November, coincides with winter and spring, as the humpbacks begin their annual migration from Antarctica to their breeding ground and the warmer waters of the Great Barrier Reef. The northern migratory route of the humpback is farther offshore as they avoid land mass, with the possibility of seeing them closer to shore being higher on their return journey to their summer feeding in the Antarctic. The most popular vantage points for whale watching in Ballina area are Ballina North Wall, Lighthouse Hill car park and Angels Beach viewing platform. At the end of your fun filled day there is no better way to relax than at Ballina Central Holiday Park well known for its superb accommodation and affordable prices.
